

Flask Project Run Commands Guide

Open PowerShell in the Flask project folder, then use:

1. Basic Flask App

```
cd "d:\newone\MLOPS\03_flask_api\flask"  
python app.py
```

2. Form App

```
cd "d:\newone\MLOPS\03_flask_api\flask"  
python getpost.py
```

3. Jinja Template App

```
cd "d:\newone\MLOPS\03_flask_api\flask"  
python jinja.py
```

4. Main App with Templates

```
cd "d:\newone\MLOPS\03_flask_api\flask"  
python main.py
```

Open in Browser

After starting one of them, visit:

URLs to Test:

```
http://127.0.0.1:5000/  
http://127.0.0.1:5000/index  
http://127.0.0.1:5000/about  
http://127.0.0.1:5000/form  
http://127.0.0.1:5000/submit
```

Run:

Then start the app again.
